Why West Adventure Tours?

Small Groups: We only travel with a maximum of 13. Small groups means that guides can actually guide, rather than spend time organising a large group, we minimise our environmental impact and our small vehicle can get to the special places we go, which are often down narrow rough bush tracks.

Camping: We sleep under the stars & in tents around the campfire in beautiful wilderness areas without noisy neighbours & mess. Many locations are private & unique to us, located by creeks & rivers on Cattle Stations & Aboriginal land, we even have 1 camp on an island!

Adventure: We love adventure, hiking, swimming & exploring. We regularly go off the trail & passengers need to have a reasonable level of fitness and an enthusiasm for nature and wild places to do this trip.

"It is a small tour group which I loved as you get to know everyone so well and also our tour guide was able to take us to really amazing hidden places bigger groups couldn't have done." Clare G

"It was very special to visit and camp in so many beautiful, secret, exclusive Kimberley Adventure Tours spots away from the madding crowd. An unforgettable journey." DavidStephensen

"This tour was everything we wanted for our first Kimberley experience - adventure, bush camping, sleeping under the stars, swimming in pristine gorges, fun and camaraderie as well as learning and understanding the beautiful and fragile environment." Victoria H
